

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

IBM Security New zSecure Adapters for QRadar SIEM product

Features

- Collects and formats information from over 40 different IBM System z SMF record types - such as zOS, RACF, ACF2, Top Secret, DB2, and CICS events (customizable)
- Additional SMF record types generated by IBM zOS8 and its sub-systems, for data set access, zVM, PDS member updates and deletes, UNIX file activity, FTP, Telnet and other TCP/IP activity and many others.
- Adds enriched descriptive audit information about the user and the resource from the security database and zSecure system snapshot information.
- Support for more frequent collection than once a day - job available for use with scheduling software

Benefits

- Extend best practices and comply with regulatory/legal/compliance requirements
- Provides a holistic, centralized approach for Security Monitoring and plugs a hole in the Enterprise Security Monitoring practice
- Supports separation of duties - stop the legacy practice of self-policing!
- Maximize QRadar capabilities for:
Log management, Anomaly detection, Incident forensics, Configuration Management, Vulnerability Management, and Risk management
