

Download File PDF Kidde Carbon Monoxide Alarm Manual Book

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

Intelligent Alarm
 Battery Operated Combination
 Carbon Monoxide, Fire & Smoke Alarm
 Part Number 900-0216 Model KN-COSM-XTR-B

Voice Alarm
Announces the hazard type demand.

Test/Reset Button
Test warning horn and triggers the voice announcement.

Combined Carbon Monoxide and Smoke Alarm
A single unit can be installed when previously two were needed. Reduce installation time and hassle for both hazard alarm protection.

LED
The LED can provide flashing green for normal operation and flashing red for alarm condition.

Visual Features
Temporarily silences nuisance alarms.

Always use an approved CO alarm that's passed UL certification.

NIGHTHAWK TECHNOLOGY
Carbon Monoxide Alarm

Description

The Kidde KN-COSM-XTR uses breakthrough technology to offer a fast response to both fire, including emergency call alerting, as well as protect you from carbon monoxide and it can install with the same ease as smoke alarms. This feature allows you to take the time to properly install a smoke alarm. The intelligent alarm contains the detection capability of an ionization smoke sensor - which is now only used in smoke detectors for code compliance, but the sensor is used for detecting CO. These alarm sensors respond to carbon monoxide through a different technology than ionization. As soon as a moderate high alarm is triggered from either the smoke or carbon monoxide sensor, the alarm will adjust its sound intensity in order to better detect smoke. An alarm will sound. This integral, continuous feature for the alarm is never performed at all times, and significantly reduces the potential for nuisance alarm.

Alarm Warnings

Battery - The alarm will have a low battery warning by three long tones. The low battery warning will sound every 24 hours.
Carbon Monoxide - Your alarm will sound a series of 9 chirps, followed by the words "WARNING! CARBON MONOXIDE!" This continues until the unit is reset or the CO is cleared.
Low Battery - One chirp followed by warning "LOW BATTERY".
The LED light will flash - This pattern will continue every minute for the first hour. After the first hour the red LED light will flash once every minute accompanied by the voice tone. The "LOW BATTERY" warning will only sound once every fifteen minutes.

*Based on accuracy claims of major manufacturers

Voice Flash Indication - "ALARM ACTIVATED" and "FRESH AIR" (if equipped) voice announcement.

Peak Level Memory - If the alarm has detected a CO level of 15ppm or higher, the unit will announce "CO PROBLEMS DETECTED" 90 seconds after the CO incident, when the "Silence Alarm" is pressed.

Features and Benefits

- Silent Alarm** - Announces the hazard type demand through flashing LED's as the lowest volume to the lowest detection alarm announcement, "Silence Alarm" or the hazard is cleared and answer "Warning Carbon Monoxide" when a CO hazard is detected.
- Combined Carbon Monoxide and Smoke Alarm** - A single unit can be installed where previously two were needed. Reduces installation time and hassle for both hazard alarm protection.
- Instant Reset Button** - Tests alarm circuitry and triggers the voice announcement.
- LED's** - Two LED's are provided. Flashing green for normal operation and flashing red for alarm condition.
- Low Battery Warning** - The unit warns of a low battery condition by sounding "Low Battery" and by flashing an alarm light and sounding a warning tone (LED).
- Battery Powered** - Provides protection even during power outage.
- Battery Safe** - Provides protection even during power outage.
- Battery Safe** - Provides the unit cannot be accidentally recalled without button pressed.
- Visual Features** - Temporarily silences nuisance alarms.
